Team 5 Meeting Minutes
Monday, March 20th, 2023

- Weekly sprint review meeting
- Takeaways from Last Sprint:
  - Code review process for the backend was very slow causing it to be completed at the last minute.
    - Thomas can work to be more involved with the code to help facilitate the code review better.
    - Thomas and Jeffrey can become more familiar with Django to this end.
  - Work on getting interfaces up sooner to help with backend implementation.
    - Particularly defining interface boundaries by consulting with and documenting with the ERD.
    - What will need to be queried
  - May need to review the ERD to ensure that it is up to date and no undocumented surprises occur.
    - Will need a collaborative effort on this part.
  - Keep a clear sight on what the goal needs to be each for sprint.
    - Should be better this sprint.

- Goals for this Sprint:
  - Start planning for the research paper.
  - Finish prototypes
  - Implement frontend UI for remaining pages
  - Finish remaining efforts from the last sprint
  - Implement 1 new BDD Test and 10 new unit tests
  - Review ERD and ensure that it is up-to-date
- Next Steps:
  - Research CI/CD hosting platforms
  - Create ½ of the prototypes for the remaining pages
  - Create tickets for this sprint and get them pointed on Jira
  - Create a basic outline/structure for the research paper
  - Plan overall effort for the upcoming sprint
