Team 5 Meeting Minutes

Monday, February 27th, 2023

- Weekly sprint review meeting
- Individual Updates:
  - **King & Chris:**
    - Chris made some changes to the fields in the ERD.
      - Added 3-4 more modules that need to be worked on.
    - Hoping to meet again and review their work to merge the two eventually.
    - Continuing overall work on the backend to set up for merging the frontend and backend.
    - Chris is taking the lead on development while King is working to assist him.
      - Code Review will happen when King and Chris merge their code together.
    - ReadMe in the backend has a list of input and output (except for the Bearer token).
  - **Thomas & Jeffrey:**
    - Jeffrey converted Thomas' prototypes into React code. Login pages are pretty much finished.
      - Thomas and Jeffrey have discussed back and forth about the design and functionalities of the pages.
    - Jeffrey implemented clientside routing from page to page through BrowserRouter.
    - Thomas and Jeffrey have been discussing testing using Cypress of Behavior Driven Testing and React Jest for unit testing.
    - Jeffrey has been working with authentication and validation for the React services.
    - Thomas has been updating documentation, creating the PowerPoint template for the Midterm presentation, and dividing the gathered research documentation.
- **Midterm Presentation**
  - Import
- **Research Documents**
  - Please fill in your name for one of the sections and start taking notes on the important topics in the papers.
  - Everyone will get two papers to complete.
- Need to arrange a meeting to ensure that all of the fields in the React Frontend match those needed by the ERD/Backend.
- Sprint
- Next Steps:
  - Have Sprint 1 Goals completed by March 9th.
  - Start going through research papers and reporting findings.

- Finish Backend Code.
- Finish Testing Suite
