# Team 5 Meeting Minutes
*Monday, April 17th, 2023*

---

- Weekly sprint review meeting
- Individual Updates:
  - **Thomas**
    - 
  - **Jeffrey**
    - Completed the friend's list modal and is close to finishing the Game Search page.
    - Waiting on the recommended player algorithm to finish the Player Search page.
    - Jeffrey is managing the CI/CD deployment and will stay on top of its maintenance.
    - Found a web service that provides game information.
      - King and Chris will discuss this in-depth as the best implementation for it will come from the backend.
  - **Chris & King**
    - Working on the recommendation algorithm for PlayerSearch based on recommended attributes.
- Since it is crunch time now, it is time to focus on the requirements and what is absolutely needed.
  - Still need Web Service APIs.
- Next Steps:
  -
