Team 5 Meeting Minutes
Monday, March 20th, 2023

- Weekly sprint review meeting
- Individual Updates:
    - **Thomas**
    - **Jeffrey**
        - Working on a document to describe the entities and backend calls needed for the major pages.
            - I.e., what needs to be sent and what needs to be received.
            - Will send the document in a chat a later time and receive feedback on it at a later date.
    - **Chris**
        - Broke through the blocker regarding foreign keys for blocking users and adding friends.
            - Will push later today so everyone can see it.
        - Going to continue work on the user profile and player entities.
        - Game Stats, add new games, search for players (based on characteristics) are features available for interaction.
    - **King**
        - Same updates as Chris, continuing to assist him where he can.
- Need to add 3 Stories to Sprint
    - Ripping up Unit Management to Include Player Playstyle
    - Blocked User API
    - Research for Web Service Implementation
- Jeffrey and King will meet during the week to discuss Hiruko and AWS CI/CD options as they are somewhat familiar with both.
- Next Steps:
    - Jeffrey and King will meet about CI/CD
    - Thomas will look ahead to Sprint 3 goals
    - Create 3 Tickets needed for the Sprint still
    - Look over the research papers and get a clear direction on a topic
    - Finish the UI Prototypes on Figma
